Sommario/riassunto	Organization theory is a fast developing field of microeconomics. Organizational approaches are now used in a wide range of topics in business studies. They are based on information economics, contract theory and mechanism design. This book introduces such organizational approaches and how to adopt them as business applications. The book presents the theory in the first two chapters and proceeds to cover the applications of the theory in the later three chapters. The theory lays the foundation and the applications illustrate how the theory can be used in a wide range of business prob
