

1. Record Nr.	UNINA9910462869603321
Titolo	Eurozone job crisis [[electronic resource]] : trends and policy responses
Pubbl/distr/stampa	Geneva, : International Labour Office, 2012
ISBN	92-9251-014-2
Descrizione fisica	1 online resource (57 p.)
Collana	Studies in growth with equity
Disciplina	330.941085
Soggetti	Labor market - Europe Unemployment - Europe Electronic books. Europe Economic conditions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Cover; Title Page; Copyright page; Foreword; Table of Contents; List of figures; List of Tables; List of Boxes; Executive summary; 1 New clouds on the Eurozone employment horizon; Figure 1 Planned and actual unemployment rates in Adjustment Programme Countries; Figure 2 Employment rates (proportion of working-age persons who have a job, percentages); Figure 3 Unemployment rates (percentages); Figure 4 Labour productivity (2005 = 100) and potential job losses in the Eurozone; 2 The policy response so far: Rationale and impact Box 1 Reforms in collective bargaining and employment regulations in selected Eurozone countries Table 1 Changes in employment protection regulations and collective bargaining in Eurozone countries, 2008-2012; Figure 5 Eurozone SMEs reporting a deterioration in access to finance(percentages); Table 2 Investment as a percentage of cash holdings of small listed companies; Figure 6 Change in unit labour costs (cumulative change over 2000-08 and 2008-11, percentages); Figure 7 Spending on active labour market programmes per unemployed person in surplus countries and deficit countries (in euros) 3 Way forward Table 3 Unemployment rates in 2012 and 2014: A job-centred scenario versus exacerbated financial stress; Box 2 Exacerbated financial stress in the Eurozone versus a job-centred strategy: A modelling assessment; Box 3 Tackling the youth employment crisis: A

call for action; Figure 8 Participants in active labour market programmes in Eurozone countries by age group, 2010 (percentages); Box 4 Examples of youth guarantee programmes; Table 4 Cost and allocations of a youth guarantee scheme in Eurozone (million of euro) 4 Concluding remarks: no recovery possible without concerted action Box 5 Sweden's response to the financial crisis in the 1990's: Lessons from a job-centred strategy; Box 6 The EU Horizontal Social Clause; References

Sommario/riassunto The study provides the latest trends on the employment situation in EU countries and examines the labour market reforms adopted by various governments.

2. **Record Nr.** UNINA9910814280403321
- Autore** Anderson David M.
- Titolo** Design for manufacturability : how to use concurrent engineering to rapidly develop low-cost, high-quality products for lean production / / David M. Anderson
- Pubbl/distr/stampa** New York, New York ; ; Abingdon, England : , : Routledge, , [2020] ©2020
- ISBN** 0-429-28598-1
1-000-76478-8
- Edizione** [Second edition.]
- Descrizione fisica** 1 online resource (xlviii, 542 pages) : illustrations
- Disciplina** 658.4013
- Soggetti** Lean manufacturing
- Lingua di pubblicazione** Inglese
- Formato** Materiale a stampa
- Livello bibliografico** Monografia
- Nota di bibliografia** Includes bibliographical references and index.
- Sommario/riassunto** "This book shows how to use concurrent engineering teams to design products for all aspects of manufacturing with the lowest cost, the highest quality, and the quickest time to stable production. Extending the concepts of design for manufacturability to an advanced product development model, the book explains how to simultaneously make major improvements in all these product development goals, while

enabling effective implementation of Lean Production and quality programs. Illustrating how to make the most of lessons learned from previous projects, the book proposes numerous improvements to current product development practices, education, and management. It outlines effective procedures to standardize parts and materials, save time and money with off-the-shelf parts, and implement a standardization program. It also spells out how to work with the purchasing department early on to select parts and materials that maximize quality and availability while minimizing part lead-times and ensuring desired functionality. This updated second edition includes completely new sections on: Scalability -- shows how to design products to easily scale up production to any need expansion quickly. This is essential for hot products to capture their full market potential (e.g., for instance for solar power to be able to rapidly replace greenhouse-gas generating power sources world-wide when the need is realized. Manufacturable Research -- a unique section that, for the first time, shows research labs many "low-hanging-fruit" techniques that can easily be done in research efforts to ensure research results will be result in manufacturable and scalable products. Commercialization -- another unique methodology to show how to preserve the "crown jewels" of un-manufacturable research or patents and redesign the rest for manufacturability. How to design half-cost products"--
