Sommario/riassunto	This volume makes available the entire autobiographical account of an Apache man as a database for the subsequent narrative analyses. The

life story reveals an individual who has experienced radical social changes, and his account provides clues for his struggles to make sense of what has happened to him as well as his attempts to prevent his life from falling apart. The reconstructive processes of his past reveal socio-collective frames, cultural themes and cultural styles of expression. The intended audience includes sociolinguists, narrative analysts, psycholinguists, conversation analysts,
