Sommario/riassunto

This is a key health care financial management textbook designed to build the economics and financial management skills nurses and nurse leaders need to use daily. This second edition provides several new features that will add to its value as a timely and highly relevant text for RN-to-BSN, BSN, and MSN students in a variety of academic nursing programs. It is aligned with the standards established by AONE, AACN, and other health care professional organizations for economics and financial management education. The text has been significantly revised to simplify its content and to be useful wi
