Sommario/riassunto	The Pet Thief is a dystopian fable of science, rebellion, humankind's inhumanity, and the struggle for identity and survival in a post-human world. When scientists, the government, and venture capitalists conspire to hybridize humans with animals-cats, specifically-for organ harvesting, drug testing, and military applications, the experiment is an irredeemable failure, producing human-like beings with uncanny abilities who are nonetheless fundamentally defective. Oboy and his mentor/tormentor Freda are two wayward hybrids, "cat people," who
