The health and caring paradox

11 Aging men, masculinity and Alzheimer's: Caretaking and caregiving in the new millenniumIndex

Sommario/riassunto

Aging Men, Masculinities and Modern Medicine explores the multiple socio-historical contexts surrounding men's aging bodies in modern medicine from a global perspective. The first of its kind, it investigates the interrelated aspects of aging, masculinities and biomedicine, allowing for a timely reconsideration of the conceptualisation of aging men within the recent explosion of social science studies on men's health and biotechnologies including anti-aging perspectives. This book discusses both healthy and diseased states of aging men in medical practices, bringing together
