Sommario/riassunto	How has the recession affected the conduct of human resource management? How have HR departments and managers fared? Have leading firms taken measures to sustain and revive their businesses through innovative HR measures? How have union representation and influence been affected? Is the recession reshaping work and employment practices? These are among the questions answered in <i>Recession at Work</i> , the first systematic study in Europe to deal with the

effects of the economic crisis on people at work. Drawing on survey data for Ireland provided by nearly 500 managers respon
