Sommario/riassunto	This text provides up-to-date, multidisciplinary, and comprehensive information about aging among diverse racial and ethnic populations in the United States. It is the only book to focus on paramount public health issues as they relate to older minority Americans, and addresses social, behavioral, and biological concerns for this population. The text distills the most important advances in the science of minority aging and incorporates the evidence of scholars in gerontology, anthropology, psychology, public health, sociology, social work, biology, medicine, and nursing. Additionally, the book
