Sommario/riassunto	"In the World Library of Educationalists series, international experts themselves compile career-long collections of what they judge to be their finest pieces - extracts from books, key articles, salient research findings, major theoretical and practical contributions - so the world can read them in a single manageable volume. In a career spanning four decades, S. Gopinathan is considered by many to be a pillar of teacher education in Singapore. He has played a key role in the establishment and transformation of Singapore's education system, pioneering many programmes and advising on policy both nationally and internationally. In the process, he has contributed over 25 books (authored, co-authored and edited) and 115 articles and book chapters to the field, and continues to inspire and empower younger colleagues in the region to challenge the cause for excellence in education and education reform. In Education and the Nation State, S. Gopinathan

brings together 14 of his key writings in one volume. Starting with a specially written introduction, which gives an overview of Gopinathan's career and contextualises his selection, the essays are then arranged thematically, providing an overview not just of his own career, but also reflecting the development and key concerns of education in the nation state that is Singapore"--

Sommario/riassunto	"In the realm of political discourse there is a distinct gap in understanding between Russia and the West. To an outsider, the ideas that animate the actions of Russia's ruling elite, opposition, and civil society--from the motivations driving Russia's political actors to the class structure and international and domestic constraints that shape Russia's political thinking--remain shrouded in mystery. Contrary to the view that a bleak discursive uniformity reigns in Putin's Russia, Political Ideologies in Contemporary Russia shows that the country is engaging in serious theoretical debates across a wide spectrum of

modern ideologies including liberalism, nationalism, feminism, and multiculturalism. Elena Chebankova argues that the nation is fragmented and the state seeks to balance the various ideological movements to ensure that none dominates. She shows that each of the main ideological trends is far from uniform, but the major opposition is between liberalism and traditionalism. The pluralistic picture she describes contests many current portrayals of Russia as an authoritarian or even totalitarian state. Offering an alternative to the Western lens through which to view global politics, *Political Ideologies in Contemporary Russia* is a major contribution to our understanding of contemporary Russia."--
