national level / Olivier De Schutter -- Risk managers or risk promoters--the impacts of export credit and investment insurance agencies on human development and human rights / Matthias Sant'Ana -- Improving the framework of negotiations on international investment agreements / Philip De Man and Jan Wouters -- The role of development banks--the European investment bank's substantive and procedural accountability principles with regard to human rights, social and environmental concerns / Nicolas Hachez and Jan Wouters.

Sommario/riassunto

<P>This book presents original research that examines the growth of international investment agreements as a means to attract foreign direct investment (FDI) and considers how this affects the ability of capital-importing countries to pursue their development goals. The hope of countries signing such treaties is that foreign capital will accelerate transfers of technologies, create employment, and benefit the local economy through various types of linkages. But do international investment agreements in fact succeed in attracting foreign direct investment? And if so, are the sovereignty costs i
