	Sommario/riassunto	Depuis le triomphe international de Art, pièce créée en 1994, Yasmina Reza ne cesse de fasciner et d'intriguer. Malgré cet accueil triomphal du public et l'engouement des médias pour cet auteur français, le théâtre de Reza suscite encore la suspicion d'une critique "parisienne". Dépassant la critique impressionniste de la littérature journalistique, l'auteur de cet ouvrage cherche à dissiper les malentendus dont ce théâtre est la victime, ainsi qu'à montrer une production théâtrale riche et variée qui mérite le détour.
