| Sommario/riassunto                                   | Fashion has become a fertile field of study for academics across<br>disciplines, now that the rules, once tightly fixed, have been<br>deconstructed. This volume brings together academics from various<br>disciplines - philosophy, sociology, medicine, anthropology,<br>psychology and psychiatry - to examine fashion's complex relationship<br>with post-industrial societies. Herein the authors address, from the<br>standpoint of their respective disciplines, what crucial functions fashion   |
