Sommario/riassunto	In Ethics and Human Reproduction, Christine Overall blends feminist theory and philosophical expertise to provide a coherent analysis of a range of moral questions and social policy issues pertaining to human reproduction and the new reproductive technologies. Topics covered include: sex preselection, artificial insemination, prenatal diagnosis, abortion, in vitro fertilisation and embryo transfer, surrogate motherhood, and childbirth. Throughout the book, the author examines the values and assumptions underlying common perceptions of sexuality and fertility, the status of the foet

Sommario/riassunto	This collection of original essays challenges French-centered conceptions of francophonie as the shaping force of the production and study of the French language, literature, culture, film, and art both inside and outside mainland France. The traditional view of francophone cultural productions as offshoots of their hexagonal avatar is replaced by a pluricentric conception that reads interrelated aspects of francophonie as products of specific contexts, conditions, and local ecologies that em...
