Sommario/riassunto	This second edition reviews the new research findings and theoretical advances on fathers, families, child development, programs, and policies that have occurred in the past decade. Contributors from a range of disciplines and countries showcase contemporary findings within a new common chapter structure. All of the chapters are either extensively revised or entirely new. Biological, evolutionary, demographic, developmental, cultural, sociological, economic, and legal perspectives of father involvement are described along with policy and program implications.
