Too Soon Dying""; ""Epilogue""; ""Appendix A: Letter on Goddard Patents""; ""Appendix B: Letter on Moral Responsibility in Hitler's Germany""; ""Notes""; ""Selected Bibliography""; ""Index""; ""About the Author""
Sommario/riassunto	Written by veteran aerospace journalist Bob Ward, who spent years investigating his subject, this biography presents a revealing but even-handed portrait of the father of modern rocketry. As he chronicles Wernher von Braun's life, Ward explodes many myths and misconceptions about the controversial genius who was a hero to some, a villain to others. The picture of von Braun that emerges is of a brilliant scientist with limitless curiosity and a drive to achieve his goals at almost any price from, developing the world's first ballistic missile
