Sommario/riassunto	O presente estudo desenvolve-se em torno das elites de Évora ao tempo da dominação filipina, e das suas estratégias de controlo do poder na referida cidade. Materializar-se-á na análise de dois importantes pólos de poder que contribuíram para a definição das elites locais no Antigo Regime, e que foram estruturantes do poder político a nível local: a Câmara Municipal e a Misericórdia de Évora. Partindo desse pressuposto este trabalho procurará identificar a estrutura do poder local, e reconstruir a composição social das elites que o controlaram. De igual modo, procurar-se-á definir as estratégias de conquista e manutenção do poder que os grupos de elite de Évora utilizaram nos sessenta anos do governo Filipino, assim como o seu comportamento perante algumas conjunturas de agitação social e política, como foram as verificadas nos primeiros e nos últimos anos dos Habsburgos em Portugal.
