Dispatches from the modernist frontier: European and Asiatic papers.
Sommario/riassunto	Shedding new light on the rich intellectual and political milieux shaping the divergent legacies of Joyce and Yeats, Empire's Wake traces how a distinct postcolonial modernism emerged within Irish literature in the late 1920's to contest and extend key aspects of modernist thought and aesthetic innovation at the very moment that the high modernist literary canon was consolidating its influence and prestige. By framing its explorations of postcolonial narrative form against the backdrop of distinct historical moments from the Irish Free State to the Celtic Tiger era, the book charts the different phases of 20th-century post-coloniality in ways that clarify how the comparatively early emergence of the postcolonial in Ireland illuminates the formal shifts

accompanying the transition from an age of empire to one of globalization. Bringing together new perspectives on Beckett and Joyce with analyses of the critically neglected works of Sean O'Faoláin, Frank McCourt, and the Blasket autobiographers, *Empire's Wake* challenges the notion of a singular "global modernism" and argues for the importance of critically integrating the local and the international dimensions of modernist aesthetics.

Sommario/riassunto	The threat posed by climate change has not yet been matched by

international agreements and economic policies that can deliver sharp reductions in greenhouse-gas emissions. Although the Kyoto Protocol has now been ratified by Russia and hence come into legal effect, the USA, China, and India are all outside its emissions caps. Few European countries are on course to meet their own national targets, and even if fully implemented, it is widely acknowledged that the Kyoto Protocol would make little difference to the carbon concentrations in the atmosphere. In consequence, there is a search for a
