Nineteenth-century language usage; 5. Concluding remarks; Corpora and databases; References; From l'usage to le bon usage and back; 1. Introduction; 1.1 Codification and prescription in seventeenth-century France

1.2 The socio-cultural context

Sommario/riassunto

The nineteenth century has attracted considerable interest in German historical (socio)linguistics over the last twenty-five years, as it is considered to be the century in which the 'roots' of present-day German can be found. A great deal of the research literature has been devoted to the rise of standard German. Little attention has been paid to the relationship between norms and usage. In order to gain an understanding of their complex relationship, this chapter will first look at socio-historical developments and language ideologies which can be seen as crucial for the external language hi

Autore	Herle Charles <1598-1659.>
Titolo	Ahab's fall by his prophets flatteries [[electronic resource]] : being the substance of three sermons, upon 1. King 22, 22 ... : the first sermon preached before the honourable the Commons House of Parliament : the second before the honourable the Lord Major of London, with the Aldermen his brethren : the third at the Abbey Church in Westminster, where it was much acquarrelled by some, and as much desired to be published by others : the which is here the rather done, because laying open the grounds of all our present miseries, specially in these two words his prophets, it may well serve to supply what is wanting in the following answer to D. Fern's second reply to the last answer of him whom the printer stild' the fuller answerer of the doctors first treatise called the resolving of conscience upon this question : whether upon this supposition The King will not defend, but is bent to subvert religion, laws and liberties, subjects may take up arms
