Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	TABLE OF CONTENTS; PREFACE; CHAPTER ONE; CHAPTER TWO; CHAPTER THREE; CHAPTER FOUR; CHAPTER FIVE; INDEX OF NAMES; SUBJECT INDEX
Sommario/riassunto	Coming on the eve of the Indian elections of 2009, The Measure of Time in the Appraisal of Social Reality is a timely and an explosive expose of what went wrong in Indian developmental planning. Focussing on the land, caste and gender issues, and advocating a place-time-people based research agenda, the Measure of Time is a scathing critique of how the elite nexus between politics and academic neo colonialism has subverted the course of genuine development in India. This is a must read for ...

	Nota di bibliografia	Includes bibliographical references and index.
	Sommario/riassunto	One of the first textbooks to be fully up-to-date with the new and expanded UML 2.0 standard, this is an ideal introduction to the Unified Modelling Language for students learning about object and component-based software design and development. The book encourages a pragmatic and open-minded approach to real-life software engineering. It places UML in the context of the software engineering discipline as a whole, providing students with a practical understanding of best practice in software design and development. The authors present a broad view of the subject area, enabling students to see for themselves how different practices may be appropriate for different situations. The book is divided into four parts
