Sommario/riassunto

This first English edition of The China Economy Yearbook, edited by standout economists Liu Guoguang, Wang Luolin and Li Jingwen, includes leading economic studies from the Chinese Academy of Social Sciences, Tsinghua University, and other economic research institutions in China. The articles in the yearbook investigate the Chinese economy in the past year from various perspectives, ranging from decision making at the macro level to key industries at the medium level, including real estate, foreign trade, the automotive industry, financing, and investment. This volume also includes special chapters on the economies of Taiwan, Hong Kong and Macao.
