Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di contenuto	What is language death? -- Why should we care? -- Why do languages die? -- Where do we begin? -- What can be done?
Sommario/riassunto	The rapid endangerment and death of many minority languages across the world is a matter of widespread concern, not only among linguists and anthropologists but among all concerned with issues of cultural identity in an increasingly globalized culture. By some counts, only 600 of the 6,000 or so languages in the world are 'safe' from the threat of extinction. A leading commentator and popular writer on language issues, David Crystal asks the fundamental question, 'Why is language death so important?', reviews the reasons for the current crisis, and investigates what is being done to reduce its impact. This 2002 book contains not only intelligent argument, but moving descriptions of the decline and demise of particular languages, and practical advice for anyone interested in pursuing the subject further.
