Sommario/riassunto

The authoritative guide to understanding and managing the ecological impacts of recreational activities in wildlands This third edition provides an updated and thorough examination of the ecological impacts of recreational use on wildlands and the best management practices to employ in places where recreation and preservation of natural conditions are both important - and often conflicting - objectives. Covering the latest research, this edition provides detailed information about the environmental changes that result from recreational use. It describes spatial patterns of impact and trends over time, t

Sommario/riassunto	Hospitaller entwickelten sich erst im 12. Jahrhundert zu eigenständigen

Institutionen, wurden dann aber zu den wichtigsten Einrichtungen privater und öffentlicher caritas. Durch unterschiedliche methodische Ansätze und aus verschiedenen Quellengattungen wird hier die Heterogenität und institutionelle Vielfalt mittelalterlicher Hospitäler in den Blick genommen. Dies führt zu einem Themenspektrum, das von der inneren Verfassung dieser Einrichtungen, von den für sie geltenden Normen über die Finanzierung und die Memoria bis hin zu ernährungsgeschichtlichen und medizinhistorischen Fragen reicht. Dabei lassen sich die Autoren von der Erkenntnis leiten, dass es das mittelalterliche Hospital nicht gab, sondern dass jede einzelne Einrichtung ihr eigenes Gesicht besaß.
