Observations

Sommario/riassunto

Think for yourself before someone does it for you. The first in a new series by and for people who know how important it is to think for yourself. Written by Independent Thinking founder Ian Gilbert, this book is an invaluable collection of reflections, ideas and insights on the nature of learning, thinking, creativity and, drawing on Ian's experience in three continents, the role education has in changing not only people's lives but also entire societies. Combining articles published in the UK, Middle East and South America plus examples of his controversial online postings and Tweets with
