Madrid Yearbearer Celebrations and Creation Mythology"" ""9. World Renewal Ceremonies in the Madrid Codex""""10. A Reconsideration of Maya Deities Associated with Creation""; ""11. Cosmology in the Maya Codices""; ""References Cited""; ""Index""
Sommario/riassunto	"Re-Creating Primordial Time offers a new perspective on the Maya codices, documenting the extensive use of creation mythology and foundational rituals in the hieroglyphic texts and iconography of these important manuscripts. Focusing on both pre-Columbian codices and early colonial creation accounts, Vail and Hernandez show that in spite

of significant cultural change during the Postclassic and Colonial periods, the mythological traditions reveal significant continuity, beginning as far back as the Classic period. Remarkable similarities exist within the Maya tradition, even as new mythologies were introduced through contact with the Gulf Coast region and highland central Mexico. Vail and Hernandez analyze the extant Maya codices within the context of later literary sources such as the Books of Chilam Balam, the Popol Vuh, and the Codice Chimalpopoca to present numerous examples highlighting the relationship among creation mythology, rituals, and lore. Compiling and comparing Maya creation mythology with that of the Borgia codices from highland central Mexico, *Re-Creating Primordial Time* is a significant contribution to the field of Mesoamerican studies and will be of interest to scholars of archaeology, linguistics, epigraphy, and comparative religions alike"--

2. Record Nr.	UNISA996418437203316
Autore	Choromanski Kacper
Titolo	Bloodstain pattern analysis in crime scenarios // Kacper Choromanski
Pubbl/distr/stampa	Singapore : , : Springer, , [2021] ©2021
ISBN	981-334-428-8
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (X, 65 p. 29 illus., 28 illus. in color.)
Collana	SpringerBriefs in Applied Sciences and Technology
Disciplina	570.285
Soggetti	Bloodstain pattern analysis Bioinformatics Forensic sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	1. Introduction -- 2. Basics of bloodstain pattern analysis -- 3. Homicide scenario -- 4. Suicide scenario -- 5. Current problems of Bloodstain Pattern Analysis.
Sommario/riassunto	This book introduces the core concepts of bloodstain pattern analysis that help to understand and make independent contributions to crime

scenes accurately. It presents a bridge between new research results and the practical work field of crime scene investigation in bloodstain pattern analysis, by showing and detailing reports of two different scenarios. The scenarios presented have an extensive description of gathered evidence and are diversified with real crime scene photography and sketches. This kind of case report is rare in scientific books, but the author, as a researcher, has permission from the authorities to present the cases. The book finally concludes with the main problems of modern bloodstain pattern analysis and discusses the way forward.

3. Record Nr.	UNISA996204063403316
Titolo	PathoGenetics
Pubbl/distr/stampa	[London], : BioMed Central, 2008-
ISSN	1755-8417
Soggetti	Genetic disorders Genetic disorders - Pathogenesis Medical genetics Genetic Diseases, Inborn Genetic Diseases, X-Linked Genetic Predisposition to Disease Periodical Fulltext Internet Resources. Periodicals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed
