On-the-Run/Off-the-Run Five-Year U.S. Treasury Bond Spread; 3. United States: Selected Spreads; 4. United States: S&P 500 Stock Market Returns and Credit Default Swap
Sommario/riassunto	The recent credit crisis started as a credit shock and then rapidly

promulgated in the form of market and funding illiquidity before inducing solvency problems at some financial institutions. This column presents empirical evidence mapping the transmission channels of the crisis.
