

1. Record Nr.	UNINA9910463606903321
Autore	Elder David E.
Titolo	Superficial melanocytic pathology : superficial atypical melanocytic proliferations // David E. Elder, Sook Jung Yun
Pubbl/distr/stampa	New York, New York : , : Demos Medical, , 2015 ©2015
ISBN	1-61705-186-1 1-62070-023-9
Descrizione fisica	1 online resource (353 p.)
Collana	Consultant Pathology ; ; Volume 7
Disciplina	616.99477
Soggetti	Skin - Cancer Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Cover; Title; Copyright; Contents; Series Foreword; Preface; References; Acknowledgments; Introduction; References; Share Superficial Melanocytic Pathology: Superficial Atypical Melanocytic Proliferations; 1.0 "Low CSD" Superficial Atypical Melanocytic Proliferations (SAMP); 1.1 Superficial Spreading Melanoma; References; 1.1.1 SSM Thin Mitogenic Versus Atypical Nevus With Mitoses; 1.1.2 Thin Mitogenic Melanoma Versus Nevus With Mitoses; 1.1.3 SSM With Extensive Regression Versus Regressing Nevus (Halo Nevus); 1.1.4 Thin SSM Versus Pagetoid Spitz Tumor in a Child 1.1.5 SSM Versus LMM Versus Atypical Nevus 1.1.6 Severely Dysplastic Nevus Versus Melanoma; 1.1.7 SSM In Situ Versus SAMPUS-Severe Dysplasia; 1.1.8 SSM Versus Pagetoid Spitz Tumor; 1.2 Nevi Including Dysplastic Nevi; References; 1.2.1 Epithelioid Cell Melanocytic Dysplasia Versus Superficial Spreading Melanoma; 1.2.2 Moderate Versus Severe Dysplasia; 1.2.3 Mild Dysplasia Versus Junctional Nevus; 1.2.4 Severe Dysplasia Versus Nevoid Melanoma; 1.2.5 Severe Dysplasia Versus Melanoma; 1.2.6 Severe Dysplasia Versus Melanoma In Situ; 1.2.7 Fibrosing Dysplastic Nevus Versus Melanoma With Regression 1.2.8 Dysplastic Nevus or Not? 1.2.9 Severe Dysplasia Versus Melanoma; 1.2.10 Fibrosing Dysplastic Nevus Versus Regressing Melanoma; 1.3

Recurrent and Traumatized Nevi; References; 1.3.1 Recurrent Nevus Versus Melanoma; 1.3.2 Recurrent and Traumatized Nevi; 1.3.3 Recurrent Nevus Versus Melanoma; 1.3.4 Recurrent Nevus Versus Melanoma; 1.3.5 Recurrent and Traumatized Nevi; 1.3.6 Nevus Versus Melanoma; 2.0 High Chronic Solar Damage Superficial Atypical Melanocytic Proliferations; 2.1 Lentigo Maligna Melanoma (High CSD Melanoma); References
2.1.1 Lentigo Maligna Melanoma and Possible Precursor Lesions
2.1.2 Lentigo Maligna Melanoma With Desmoplastic Vertical Growth Phase Versus Atypical Neurotized Compound Nevus; 2.1.3 Intraepidermal Atypical Melanocytic Proliferation of Uncertain Significance, Regressing Melanoma Versus Benign Lichenoid Keratosis With Junctional Melanocytic Hyperplasia Versus Atypical Nevus; 2.1.4 Lentigo Maligna Melanoma, Invasive, Versus Incidental Dermal Nevus in Lentigo Maligna; 2.1.5 Nevoid Lentigo Maligna Versus Severely Dysplastic Nevus
2.1.6 Nevoid Lentigo Maligna Versus Atypical Lentiginous Junctional Nevus
2.1.7 Melanoma In Situ Versus Lentiginous Nevus With Atypia or Severe Dysplasia; 2.1.8 Melanoma In Situ Versus Severe Dysplasia; 2.2 Actinic (Solar) Lentigo and Lentiginous Nevi in Sun-Damaged Skin; References; 2.2.1 Actinic Lentigo Versus Lentigo Maligna; 2.2.2 Actinic Lentigo Versus Lentigo Maligna; 2.2.3 Actinic Lentigo With Spindle Cells; 2.2.4 Atypical Lentigo Versus Regressing Melanoma; 2.2.5 Lentiginous Nevus Versus Lentiginous Melanoma; 3.0 Superficial Atypical Melanocytic Proliferations in Acral Skin
3.1 Acral Melanoma

Sommario/riassunto

Add Expert Analysis of Difficult Cases to Your Practice With Consultant Pathology. Superficial Melanocytic Pathology provides expert guidance for resolving the real world problems pathologists face when diagnosing melanomas and other atypical pigmented lesions. It reviews each major category of atypical melanocytic lesions, including the pathology of the superficial categories of melanoma followed by a discussion of the major simulants of melanoma. The book provides an overview of the morphologic description and diagnostic issues for each lesion, followed by 60 detailed, abundantly illustrated
