Sommario/riassunto	In Gendering Bodies, Crawley, Foley and Shehan demonstrate how gendered messages about bodies and the social world shape our physical bodies and social selves. At work, in sports and during sex, gendered messages constantly organize our common, everyday settings through a feedback loop of confirmations and disruptions in everyday talk and interaction. This book is an accessible, yet comprehensive, theory of a sociology of the gendered body.

Sommario/riassunto

For all its concern with change in the present and future, science fiction is deeply rooted in the past and, surprisingly, engages especially deeply with the ancient world. Indeed, both as an area in which the meaning of ""classics"" is actively transformed and as an open-ended set of texts whose own 'classic' status is a matter of ongoing debate, science fiction reveals much about the roles played by ancient classics in modern times. Classical Traditions in Science Fiction is the first collection dedicated to the rich study of science fiction's classical heritage, offering a much-needed mappi

Coetzee and Nadine Gordimer; 12 African Short Stories and the Online Writing Space; Bibliography; Index
Sommario/riassunto	This book puts the short story at the heart of contemporary postcolonial studies and questions what postcolonial literary criticism may be. Focusing on short fiction between 1975 and today – the period in which critical theory came to determine postcolonial studies – it argues for a sophisticated critique exemplified by the ambiguity of the form.
