

1. Record Nr.	UNINA9910463741603321
Autore	Kurlan Roger M.
Titolo	Hyperkinetic movement disorders / / Roger M. Kurlan, MD, Director, Movement Disorders Program, Atlantic Neuroscience Institute, Overlook Medical Center, Summit, NJ, Paul E. Greene, MD, Department of Neurology, Mt. Sinai School of Medicine, New York, NY, Kevin M. Biglan, MD, MPH, Department of Neurology, University of Rochester Medical Center, Rochester, NY
Pubbl/distr/stampa	Oxford : , : Oxford University Press, , [2015] ©2015
ISBN	0-19-937546-1 0-19-937547-X
Descrizione fisica	1 online resource (209 pages) : illustrations (some color), portraits
Collana	Contemporary neurology series
Disciplina	616.8589
Soggetti	Hyperkinesia Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	This resource covers the signs, pathophysiology, genetics (where applicable), and treatment options of each form of hyperkinetic movement disorder. There is a presentation of clinically-focused information regarding the full spectrum of neurological and psychiatric conditions characterised by involuntary movements. This title expands on hyperkinetic movement disorders where substantial progress has been made in the understanding of the role of the basal ganglia in the pathophysiology of these hyperkinesia disorders and in motor control, muscle tone, posture, and cognitive processes.
