

1. Record Nr.	UNINA9910463825303321
Autore	Weerda Hilko
Titolo	Reconstructive facial plastic surgery : a problem-solving manual / / Hilko Weerda, MD, DMD, Professor Emeritus, Department of Otorhinolaryngology - Head, Neck, and Plastic Surgery, University Hospital Schleswig-Holstein, Campus Lubeck, Lubeck, Germany
Pubbl/distr/stampa	Stuttgart : , : Thieme, , [2015] ©2015
ISBN	3-13-169632-X
Edizione	[Second revised and expanded edition.]
Descrizione fisica	1 online resource (276 p.)
Disciplina	617.5/20592
Soggetti	Face - Surgery Surgery, Plastic Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	In 2001, the first edition of this book was awarded the George Davey Howells Memorial Prize in Otolaryngology by the University of London and the Otology Section of the Royal Society of Medicine, London, UK.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Reconstructive Facial Plastic Surgery: A Problem-Solving Manual; Title Page; Copyright; Contents; Foreword to the 2nd Edition; Foreword to the First Edition; Preface to the 2nd Edition; Contributors; I Anatomy, Principles of Facial Surgery, and Coverage of Defects; 1 Anatomy of the Skin and Skin Flaps; The Skin (Fig. 1.1); Types of Skin Flaps; Random Pattern Flaps (Fig. 1.2); Axial Pattern Flaps (Fig. 1.3); Island Flaps (Fig. 1.4); Myocutaneous Island Flaps (Fig. 1.5; see also Fig. 12.1); Neurovascular Island Flaps; 2 Basic Principles of Facial Surgery; Suture Materials and Techniques Basic Instrument Set for Reconstructive Facial Plastic Surgery (Fig. 2.7) The Binocular Loupe (Fig. 2.7c); Additional instruments; Wound Management, Repair of Small Defects, and Scar Revision; Relaxed Skin Tension Lines, Vascular Supply (Fig. 2.8i), and "Esthetic Units" (Fig. 2.20); Wound Management, Repair of Small Defects, and Scar Revision; Management of Wounds with Traumatic Tattooing; Scar Revision by W-Plasty and the Broken-Line Technique of Webster (1969) (Fig. 2.8a-j); Small Excisions; Z-Plasty (Figs. 2.15 and 2.16); Postoperative Treatment

of Scars

Esthetic Units of the Face (Fig. 2.20) Tumor Resection with Histologic Control (Fig. 2.21); Free Skin Grafts (Fig. 2.22); Composite Grafts (Fig. 2.23); Cartilagenous and Composite Grafts for Auricular and Nasal Reconstruction; Graft Nomenclature; 3 Coverage of Defects; Local Flaps; Advancement Flaps; Advancement Flap of Burow (1855) (Fig. 3.1); Burow's U-Advancement (Figs. 3.2-3.7); V-Y and V-Y-S Advancement of Argamaso (1974) (Figs. 3.8-3.10); Flaps without Continous Epithelial Coverage (Rettinger 1996a, b); Sliding Flap (Figs. 3.11-3.14); Pedicled Flaps; Transposition Flap (Fig. 3.15) Rotation Flap (Fig. 3.19) Bilobed Flap (Fig. 3.22); Rhomboid Flap (Figs. 3.24-3.27); Turnover Flap (Fig. 3.28); Tubed Pedicle Flap (Bipedicle Flap) (Fig. 3.29); Distant Flaps; Distant Tubed Pedicle Flap; Myocutaneous and Myofascial Flaps (see Figs. 12.1-12.3); Special Part; II Coverage of Defects in Specific Facial Regions; 4 Forehead Region; Median Forehead Region; Wedge-Shaped Defects (Fig. 4.1); H-Flap (Fig. 4.2); Double Rotation Flap (Fig. 4.3); Lateral Forehead Defects (Fig. 4.5); 5 Nasal Region; Glabella and Nasal Root (Figs. 5.1-5.9); U-Advancement Flap of Burow (Fig. 5.1) V-Y Advancement (Fig. 5.2 see also Figs. 3.8-3.10); Sliding Flap (Fig. 5.7); Nasal Dorsum (Figs. 5.8-5.12); Bilobed Flap (Fig. 5.8); Island Flap (Fig. 5.9); Rieger Flap (Fig. 5.10); Nasolabial Flap (Fig. 5.11); Median Forehead Flap (Fig. 5.12); Nasal Tip (Figs. 5.13-5.17); Bilobed Flap (Fig. 5.13); V-Y Advancement Flap of Rieger (1957) (Fig. 5.14); Median and Paramedian Forehead Flap (Fig. 5.15); Larger Defects of the Nasal Tip and Ala; Frontotemporal Flap of Schmid and Meyer (Figs. 5.17 and 5.18); Nasal Flank; Flap Advancement of Burow (1855) (Fig. 5.22) Median Cheek Rotation of Sercer and Mundich (1962) (Fig. 5.23)

Sommario/riassunto

Drawing on decades of operating room and teaching experience, Dr. Weerda and his team offer a complete guide to reconstructive options for facial, head, and neck defects in this eagerly awaited second edition. Their systematic, step-by-step approach, with an emphasis on meticulous preoperative planning, evaluation of alternatives, and selection of the best procedure, ensures optimal results for all patients. Focusing on the questions, problems, and technical solutions most commonly encountered in everyday practice, this compact book will be valuable to both the novice and more experienced su
