Sommario/riassunto	Vygotsky & Bernstein in the Light of Jewish Tradition examines the role that Jewish cultural tradition played in the work of the Russian psychologist Lev S. Vygotsky and the British sociologist Basil Bernstein by highlighting aspects of their respective lives and theories revealing significant influences of Jewish thoughts and beliefs. The authors demonstrate that theories and human life are dialectically

interconnected: what research can reveal about a man can also provide a better understanding of the very nature of his theory. This book is a valuable resource for psychologists, sociologists and students interested in the sociocultural formation of mind.
