Sommario/riassunto

Providing for National Security: A Comparative Analysis argues that the provision of national security has changed in the 21st century as a result of a variety of different pressures and threats. In this timely volume experts from both the academic and policy worlds present 13 different country case studies drawn from across the globe-including established and newer states, large and smaller states, those on the rise and those in apparent decline-to identify what these key players consider to be their national security priorities, how they go about providing national security, how
