

1. Record Nr.	UNINA9910450871903321
Autore	Stone Gregory B. <1961->
Titolo	Dante's pluralism and the Islamic philosophy of religion [[electronic resource] /] / Gregory B. Stone
Pubbl/distr/stampa	New York, : Palgrave Macmillan, 2006
ISBN	1-281-36972-1 9786611369729 1-4039-8309-7
Edizione	[1st ed.]
Descrizione fisica	1 online resource (VII, 326 p.)
Collana	The new Middle Ages
Disciplina	851/.1
Soggetti	Islamic eschatology in literature Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. [311]-317) and index.
Sommario/riassunto	This book explores the Islamic roots of the Western values of tolerance and religious pluralism, and considers Dante from the perspective of the Arab-Islamic philosophical tradition. It examines the relations between Islamic and Western thought, the historical origins of Western values, and the tradition of tolerance in classical Islamic thought.

Titolo	World cancer report 2014 // edited by Bernard W. Stewart and Christopher P. Wild
Pubbl/distr/stampa	Lyon, France : , : International Agency for Research on Cancer, , 2014
ISBN	92-832-0432-8 92-832-0443-3 92-832-0434-4
Descrizione fisica	1 online resource (1900 p.)
Disciplina	362.196994
Soggetti	Cancer - Epidemiology Cancer - Etiology Cancer - Prevention World health Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front Cover; Title Page; Copyright Page; World Cancer Report 2014; Contributors; Contents; Perspectives; Foreword; Preface; Introduction; 1 Cancer worldwide; 1.1 The global and regional burden of cancer; 1.2 Transitions in human development and the global cancer burden; 1.3 Childhood cancer; Elizabeth H. Blackburn; Reconciling stress and cancer: insights from telomeres; Genetic susceptibility to tobacco-related cancers; 2.3 Alcohol consumption; Inflammation and cancer; Do infections play a role in breast cancer?; 2 Cancer etiology Challenges of measuring diet in cancer epidemiological studies and new perspectivesSingle-nucleotide polymorphisms relevant to meat consumption and cancer risk; Diet and the gut microbiome; Evaluating carcinogens: dioxins and dioxin-like substances; Preventing occupational cancer: successes and failures; An IARC announcement that made waves; Bisphenol A and cancer; Pesticides and cancer; Breast implants and cancer; TP53 mutations and human cancer; Gene-environment interactions and breast cancer DNA repair polymorphisms and human cancer

Therapeutic implications of dysregulated DNA damage signalling
The non-coding RNA revolution in medical research; Causes and consequences of microRNA dysregulation in cancer; Stem cells in cancer: determinants of clinical outcome?; 3 Cancer biology; Role of the innate and acquired immune systems in mammary development and breast cancer; Premortem autophagy and endoplasmic reticulum stress as immunogenic signals in cancer therapy; 4 Cancer prevention; 4.1 Changing behaviours - tobacco control; Australia's plain packaging of tobacco products; Tobacco and China
4.2 Changing behaviours - physical activity and weight control
Energy restriction, age, and cancer risk; EPIC as a model study vehicle; 4.3 Designing and evaluating population-wide campaigns; 4.4 Prevention strategies common to noncommunicable diseases; The global economics of chronic and noncommunicable diseases; 4.5 Legislative and regulatory initiatives; Environmental pollution: old and new; Taxing sugar-sweetened beverages: the Brazilian case; 4.6 Vaccination; Early implementation and monitoring of HPV vaccination in Bhutan
Introduction and monitoring of a national HPV vaccination programme in Rwanda
4.7 Screening - principles; 4.8 Screening - implementation; A guide to the epidemiology data in World Cancer Report; 5.1 Lung cancer; Earliest molecular evidence of tobacco-induced injury in the airway; Biomarkers of air pollution; 5.2 Breast cancer; Biological mechanisms mediating reduced breast cancer risk through physical activity; Treatment determined by BRCA1/2 mutation; 5.3 Oesophageal cancer; Risk of malignant progression in Barrett oesophagus patients; 5.4 Stomach cancer; Gastric cancer prevention
5 Cancer by organ site

Sommario/riassunto

This book from the International Agency for Research on Cancer the specialized cancer agency of the World Health Organization provides a unique global view of cancer including cancer patterns causes and prevention. The World Cancer Report series is recognized as an authoritative source of global perspective and information on cancer. The first volume appeared in 2003 and the second in 2008. This third volume in the series encompasses both established knowledge and recent research achievement. World Cancer Report provides a professional multidisciplinary assessment of all aspects of the geograp

Nota di contenuto	Setting A Context -- The Form of Small Towns' Centers -- Weaving in With Nature -- Mobility And Connectivity -- Dwelling In The Core -- Preserving The Old -- Wealth Generation By Design -- Town Centers As Communal Living Rooms.
Sommario/riassunto	The book introduces challenges affecting smaller urban communities with fewer than 50,000 inhabitants and offers urban planning and building/architectural strategies to strengthen their city centers. It divides urban renewal of small towns into sub-components such as environmental challenges, demographic trends, economic changes and cultural aspects, and aging infrastructure. In each, context is established, and principles are outlined and illustrated. Topics include urban form, mobility and connectivity, infill neighborhoods design, wealth generation, and promotion of local culture and wellbeing. Reinforced with detailed case studies, Fundamentals of Sustainable Urban Renewal in Small and MidSized Towns is an ideal resource for municipal planners, architects, civil engineers, and policy makers.

Raises important questions on planning, urban design, and sustainability not previously covered by books devoted solely to large metropolitan regions; Presents a unique, systematic approach to the architecture, planning, and retooling of small towns that emphasizes the capacity for urban design to promote social regeneration and vitality; Suggests innovative strategies that tie theory and practice and offer a comprehensive primer to contemporary planning issues; Discusses a range of long-term strategies, anchored in principles of sustainable development, describing how to place a town on sustainable footing.
