Sommario/riassunto

Use this important intervention to improve your practice with substance-using youths and their families! This vital book gives you a detailed review of a National Institute on Drug Abuse-funded, long-term clinical trial of the Family Empowerment Intervention (FEI). The subjects are youths who have been arrested and processed at the Hillsborough County Juvenile Assessment Center and their families. With information on the conceptual foundations and clinical practices of the intervention and an examination of its one-year and longer-term impact on these youths' recidivism and psychosoci
