Sommario/riassunto

The paper discusses the improvements which a semi-autonomous revenue agency (SARA) must make to its records to meet fiscal and financial accounting obligations. SARAs are legal entities, such as a service or a department, which are required to prepare accrual records that may diverge from a treasury's cash accounting records. Their records reflect revenues generated; budget funds for generating the revenues; and material programs administered for other agencies. The accounting records and financial statements (income statement, balance sheet and cash flow statement) must conform to generally-a
