#### Sommario/riassunto

The up-to-date text covers the identification, voice, habitat, behaviour and range of all the 1270 species and distinctive subspecies of this magnificent bird-rich region. The authoritative text is accompanied by over 140 full-colour plates painted by a range of expert artists and covering major plumage variations. Birds of South-East Asia is a complete field and reference guide to the birds of Thailand, Peninsular Malaysia, Singapore, Myanmar, Laos, Vietnam and Cambodia. It also covers a wide range of species found in the Indian subcontinent, China, Taiwan, Sumatra, Java, Bali, Borneo and th
