

1. Record Nr.	UNINA9910464035103321
Autore	Lee Jing
Titolo	Preservation of ecosystems of international watercourses and the integration of relevant rules an interpretative mechanism to address the fragmentation of international law / / by Lee Jing
Pubbl/distr/stampa	Leiden, The Netherlands : , : Brill Nijhoff, , 2014 ©2014
ISBN	90-04-26839-1
Descrizione fisica	1 online resource (447 p.)
Collana	International Water Law Series, , 2351-9606 ; ; Volume 2
Disciplina	346.04/69162
Soggetti	Watershed management - Law and legislation Environmental law, International International rivers Freshwater ecology - Government policy Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Originally published as author's thesis (doctoral - University of Dundee), 2013.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Preliminary Material / Jing Lee -- Introduction: Preserving Ecosystems of International Watercourses / Jing Lee -- 1 The Fragmentation of International Law and Its Integration: Interpretation and Article 31(3)(c) of the 1969 Vienna Convention / Jing Lee -- 2 Relevant Preservation of Ecosystems of International Watercourses—An Ecosystem Approach / Jing Lee -- 3 Rules of International Law Applicable in the Relations between the Parties: A Review of Existing Interpretation / Jing Lee -- 4 Rules of International Law Applicable in the Relations between the Parties: An Interactional Theory of Law / Jing Lee -- 5 Ramsar Convention: Rules of International Law Applicable in the Relations between the Parties / Jing Lee -- 6 Biodiversity Convention: Rules of International Law Applicable in the Relations between the Parties / Jing Lee -- 7 Shall Take into Account, Together with the Context—Systemic Integration: An Architecture / Jing Lee -- 8 Systemic Integration: An Operationalisation / Jing Lee -- 9 Preservation of Ecosystems of International Watercourses and the Integration of Relevant Rules:

Sommario/riassunto

In *Preservation of Ecosystems of International Watercourses and the Integration of Relevant Rules: An Interpretative Mechanism to Address the Fragmentation of International Law*, Lee Jing takes an innovative approach to developing an international legal framework for preserving ecosystems. Deploying Article 31(3)(c) of the 1969 Vienna Convention an analytical framework is devised that examines 'the ecosystem approach' under international law through the prism of Article 20 of the UN Watercourses Convention. The analysis provides an enhanced normative scope and content for the UN Watercourses Convention's approach to the obligation to preserve, taking into account contemporary developments in international law. The work demonstrates the full potential of the Vienna Convention's Article 31(3)(c) as an integration tool in addressing the fragmentation of international law.
