Grunert, Susan James, and Phillip Moss -- Restructuring customer service : labor market institutions and call center workers in Europe and the United States / Caroline Lloyd, Claudia Weinkopf, and Rosemary Batt.
Sommario/riassunto	"Low-Wage Work in the Wealthy World builds on an earlier Russell Sage

Foundation study (Low-Wage America) to compare the plight of low-wage workers in the United States to five European countries - Denmark, France, Germany, the Netherlands, and the United Kingdom - where wage supports, worker protections, and social benefits have generally been stronger. By examining low-wage jobs in systematic case studies across five industries, this international study goes well beyond standard statistics to reveal national differences in the quality of low-wage work and the well-being of low-wage workers."--BOOK JACKET.
