Notable Badgers of Page and Screen; 4. Uses and Abuses: The Persecuted Badger; Epilogue: Badger People, Badger Futures; Timeline of the Badger; References; Select Bibliography; Associations and Websites; Acknowledgements; Photo Acknowledgements; Index
Sommario/riassunto	Fierce, menacing, and mysterious, badgers have fascinated humans as living animals, abstract symbols, or commercial resources for thousands of years-often to their detriment. With their reputation for determined self-defense, they have been brutalized by hunters and sportsmen, while their association with the mythic underworld has made them idealized symbols of earth-based wisdom and their burrowing habits have resulted in their widespread persecution as pests. In this highly illustrated book, Daniel Heath Justice provides the first global cultural history of the badger in over thirty years.
