Sommario/riassunto	This book demonstrates exact scholarship (and an) understanding of

the way in which business works...(it has) a capacity to reduce a mass of apparently unrelated facts into the neat shape of theory."<EM>The Economist</EM> <BR>Describing and analyzing the part played by Western firms and governments in the economic development of Indonesia and Malaysia, the period covered by this survey extends from the early decades of the nineteenth century to the 1950s. Special attention is given to the changes that have taken place since the Second World War. The intricate economic relations between Weste
