"Funny how a gay man's hand resting heavily on your shoulder used to say let's fuck but now means let's not. Funny how ostensible nearness really betrays distance sometimes." -from The Nearness of Others In this radical, genre-bending narrative, David Caron tells the story of his 2006 HIV diagnosis and its aftermath. Sommario/riassunto

En los seres humanos el aprendizaje está, en gran parte, mediado por el lenguaje, ya que este último constituye la principal vía de comunicación entre humanos. Ambos procesos cognitivos son fundamentales para nosotros, ya que nos permiten adquirir conocimientos, conductas y aptitudes y compartirlas y enseñarlos a otros. A lo largo de la obra se abordan los fundamentos cognitivos básicos del aprendizaje y el lenguaje, así como aquellos aspectos neuroanatómicos relevantes para la comprensión de dichos procesos. El presente libro está dirigido a todos aquellos estudiantes, docentes y profesionales que estén interesados en ampliar sus conocimientos sobre los procesos psicológicos básicos y las bases neuroanatómicas de éstos, siendo de gran utilidad tanto para psicólogos, como pedagogos, psicopedagogos, maestros, logopedas, terapeutas ocupaciones, etc.

Sommario/riassunto	This book reports on research findings and practical lessons featuring advances in the areas of digital and interaction design, graphic design and branding, design education, society and communication in design practice, and related ones. Gathering the proceedings of the 6th International Conference on Digital Design and Communication, Digicom 2022, held on November 3–5, 2022, as an hybrid event, from Barcelos, Portugal, and continuing the tradition of the previous book, it describes new design strategies and solutions to foster digital communication within and between the society, institutions and brands. By highlighting innovative ideas and reporting on multidisciplinary projects, it offers a source of inspiration for designers of all kinds, including graphic and web designers, UI, UX and social media designers, and to researchers, advertisers, artists, and brand and corporate communication managers alike.
