Sommario/riassunto	Reason and Rationality in Health and Human Services Delivery is the first book to discuss the topic of decisionmaking and services from a multidisciplinary approach. It uses theory and social considerations, not just technology, as a basis for improved services. Health and human

service students and professionals will learn how to form rational and reasonable decisions that take their clients' cultural backgrounds into consideration when identifying an illness or appropriating any kind of intervention. With a particular emphasis on theories, models, organizational settings, technologi
