University in a Garage -- Chapter seven. "We Are Both Hosts" -- References -- Index

Sommario/riassunto

Public Universities and Regional Growth examines evolutions in research and innovation at six University of California campuses. Each chapter presents a deep, historical analysis that traces the dynamic interaction between particular campuses and regional firms in industries that range from biotechnology, scientific instruments, and semiconductors, to software, wine, and wireless technologies. The book provides a uniquely comprehensive and cohesive look at the University of California's complex relationships with regional entrepreneurs. As a leading public institution, the UC is an exemplar for
