

1. Record Nr.	UNINA9910464268903321
Autore	Frank Adam <1962->
Titolo	The constant fire [[electronic resource]] : beyond the science vs. religion debate / / Adam Frank
Pubbl/distr/stampa	Berkeley, : University of California Press, c2009
ISBN	1-282-77235-X 9786612772351 0-520-94203-5
Descrizione fisica	1 online resource (301 p.)
Disciplina	201/.65
Soggetti	Religion and science - History Bible and science - History Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 269-281) and index.
Nota di contenuto	Front matter -- Contents -- Acknowledgments -- Prologue. House of the Rising Sun -- Part I. The Map: Reimagining Science, Myth, and the Sacred -- Part II. The Terrain: Sacred Narratives in Science and Myth -- Part III. A New Path to the Waterfall: Science, Myth, Truth, and the Future -- Epilogue. Fire in the Open Mind -- Notes -- Index
Sommario/riassunto	Eloquent, urgent, and inspiring, The Constant Fire tackles the acrimonious debate between science and religion, taking us beyond its stagnant parameters into the wider domain of human spiritual experience. From a Neolithic archaeological site in Ireland to modern theories of star formation, Adam Frank traverses a wide terrain, broadening our sights and allowing us to imagine an alternative perspective. Drawing from his experience as a practicing astrophysicist and from the writings of the great scholars of religion, philosophy, and mythology, Frank locates the connective tissue linking science and religion-their commonality as sacred pursuits-and finds their shared aspiration in pursuit of "the True and the Real." Taking us from the burning of Giordano Bruno in 1600 to Einstein and on to today's pressing issues of global warming and resource depletion, The Constant Fire shows us how to move beyond this stale debate into a

more profound experience of the world as sacred-a world that
embraces science without renouncing human spirituality.
