Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. The mind and the body -- pt. 2. Cognition and perception -- pt. 3. Imagination and (e)motion.
Sommario/riassunto	This book provides an interdisciplinary, unified view of sensual cognition and its cultural manifestations. The contributors favour an ecological perspective and revisit and problematize some of the core assumptions in Cognitive Linguistics. One of the original tenets of CL states that human thinking is grounded in experiential gestalts as well as in interaction between peoples' embodied minds and their various environments or cultures. In addition to looking in detail at this tenet, the volume provides major insights into the methodological and theoretical dimensions of Cognitive Linguistics research and describes applications of the paradigm in diverse contexts and cultures.
