Palliative treatments: selective arterial embolization for bone metastases 11. Palliative treatments: electrochemotherapy and thermoablation; 12. Novel targeted therapies of bone tumors and future directions; Index
Sommario/riassunto	This book adopts a concise approach to the topic of bone metastasis management. It provides summarized information and updated references on the different aspects of metastasization, medical treatment, radiotherapy, surgical treatments and the newer palliative options. As such, the book does not presume to be comprehensive but instead offers an update on the newer concepts and treatments. The editors have gathered together a team of excellent authors to address the different aspects and concepts and to provide a unique

multidisciplinary perspective on the key issues of metastatic disease
and i

Unusual Punishment"
Living Without Intimacy is Hard, But Who Cares?

Sommario/riassunto

<P>A growing epidemic, Alzheimer's punishes not only its victims but also those married to them. This book analyzes how Alzheimer's is quietly transforming the way we think about love today. Without meaning to become rebels, many people who find themselves ""married to Alzheimer's"" deflate the predominant notion of a conventional marriage. By falling in love again before their ill spouse dies, those married to Alzheimer's come into conflict with central values of Western civilization - personal, sexual, familial, religious, and political. Those who wait sadly for a spouse's death must sometim
