Nota di contenuto Frontmatter -- Contents -- Tables, Figures, and Map -- Preface --Acknowledgments -- 1. Introduction -- 2. Factors Affecting University Technology Transfer -- 3. The US and UK Technology Commercialization Framework -- 4. Yale University -- 5. The University of Cambridge -- 6. Apples to Apples -- 7. Conclusion -- Appendix 1: Organizational Charts Indicating Technology-Transfer Organizations --Appendix 2: Methodology -- Notes -- References -- Index This study analyzes two world-renowned universities - Yale and Sommario/riassunto Cambridge - their investment in technology commercialization, and the outcome of this contribution in their local economies. This book has three main arguments: the way in which a university goes about improving its technology-transfer capability matters; by choosing a particular path of change, the university also changes its role and its ability to contribute to the region; and not all changes will positively

affect the local economy.
