

1. Record Nr.	UNINA9910464353103321
Autore	Hunter Lisa L.
Titolo	Acoustic immittance measures : basics and advanced practice // Lisa L. Hunter, Navid Shahnaz
Pubbl/distr/stampa	San Diego, California : , : Plural Publishing, , 2014 ©2014
ISBN	1-59756-639-X
Descrizione fisica	1 online resource (177 p.)
Collana	Core clinical concepts in audiology Acoustic immittance measures
Disciplina	617.8/075
Soggetti	Audiometry, Impedance Audiology - Instruments Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Foreword; Preface; Acknowledgments; 1. Overview and History of Acoustic Immittance; 2. Anatomy and Physiology of the Outer and Middle Ear; 3. Physical Principles of Aural Acoustic Immittance; 4. Single-Frequency Tympanometry Measures; 5. Multifrequency, Multicomponent Tympanometry; 6. Acoustic Stapedial Reflex; 7. Wideband Reflectance Principles; 8. Middle Ear Measurement in Infants and Children; 9. Middle Ear Disorders and Case Examples; References; Index
Sommario/riassunto	This book offers an accessible and easy to understand treatment of acoustic immittance, from basic to advanced measures. Laboratory exercises and clinical cases from actual practice are provided, with focused questions to elicit classroom discussion.
