   Formato             Materiale a stampa

   Livello bibliografico   Monografia

   Note generali       Description based upon print version of record.

   Nota di bibliografia   Includes bibliographical references and index.

   Nota di contenuto   Spain between decolonizations : history against the currents of history -- Columbus's remains, Columbus in chains : commemoration and its discontents in late nineteenth-century Spain and Cuba -- The problem of prehistory in Puerto Rico and Cuba -- The specter of Las Casas -- Spain in the Philippines : archive and authority circa 1898 -- The return of Ponce de Leon.

   Sommario/riassunto  As Spain rebuilt its colonial regime in Cuba, Puerto Rico, and the Philippines after the Spanish American revolutions, it turned to history to justify continued dominance. The metropolitan vision of history, however, always met with opposition in the colonies.  The Conquest of History examines how historians, officials, and civic groups in Spain and its colonies forged national histories out of the ruins and relics of the imperial past. By exploring controversies over the veracity of the Black Legend, the location of Christopher Columbus's mortal remains, and the survival of indigenous culture
