Sommario/riassunto	The world has seen several financial and economic crises in the past few years. Psychological, ethical and philosophical levels of causal analysis have been discussed, and in this context, an interest in classical thinkers has emerged. The work of Aristotle has influenced writers from Marx and Menger to Amartya Sen. This book introduces us to Aristotle's thought on 'the economic' and on its influences on economists. First, it focuses on Aristotle s ideas, situating Aristotle in his historical context, describing his positions on the economic and analysing what kind of reality
