

1. Record Nr.	UNINA9910464416203321
Titolo	Greenhouse gas emission from ruminant supply chains : a global life cycle assessment
Pubbl/distr/stampa	Rome, Italy : , : Food and Agriculture Organization of the United Nations, , 2013 ©2013
ISBN	92-5-107945-5
Descrizione fisica	1 online resource (214 p.)
Disciplina	363.73874
Soggetti	Greenhouse gases - Environmental aspects - Italy Greenhouse gas mitigation Land use, Rural - Environmental aspects Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	""Greenhouse gas emissions from ruminant supply chains - A global life cycle assessment""; ""Table of contents""; ""List of tables""; ""List of figures""; ""Abbreviations""; ""Definitions of commonly-used terms""; ""Executive summary""; ""1. Introduction""; ""2. Overview of the global ruminant sector""; ""3. Methods""; ""4. Results""; ""5. Discussion""; ""6. Conclusion""; ""References""; ""Appendices""; ""List of tables""; ""List of figures""; ""Appendix A - The Global livestock environmental assessment model (GLEAM)""; ""Appendix B - Data and data sources""; ""Appendix C -Changes in carbon stocks related to land use and land-use change""; ""Appendix D - Postfarm emissions""; ""Appendix E - Emissions related to energy use""; ""Appendix F - Relative value of slaughter by-products and effect on allocation of emissions""; ""Appendix G - Maps""; ""Appendix H - Country list""
